

Linda Shotwell will be the host for the Sept. 21 FREE Meetup.

Look up painted sticks on Pinterest.com and you will see some really beautiful pieces of art!

So bring sticks, or twigs, dowels, canes, or driftwood to the meetup along with your acrylic paints and brushes and we will let our imaginations go wild!

Couple of notes:

It helps to already have the bark removed if you bring twigs.

You may want to only paint a portion of your stick so that you can put it partially in a box to get it home without getting paint everywhere.

Or you paint thin layers at the meetup and do the final layers at home. Acrylic paint dries pretty quickly.

I look forward to seeing you! — Linda

RSVP vis our [Meetup site](#) (it's free to join Meetup) or email Linda at lindawoodshotwell@gmail.com
